

Use the following words to label the diagram of the human eye:

PUPIL	CORNEA	RETINA	IRIS	LENS	OPTIC NERVE	VITREOUS BODY
The round, black part of your eye.	The transparent outer layer of the eyeball.	The lining at the back of the eyeball.	The coloured part of your eye.	The transparent structure of your eye.	The bundle of nerves that sends messages between the retina and the brain.	The clear gel that fills the space between the lens and the retina.
